

7 MUST-HAVE APPS

EVERY BELLY DANCE TEACHER AND
CHOREOGRAPHER NEEDS!

1

Rhythm ID

It can be difficult for new dancers to detect the rhythm in a piece of belly dance music. And yet knowing the rhythms is a crucial part of becoming a good dancer. This app will help you train your ear to identify the rhythms with greater depth.

2

SongMark

Dancer's Best Friend is here! Say goodbye to manually scrubbing and running to the speaker every second. The best app for dancers to mark and loop any section of music they are choreographing, rehearsing, or teaching to.

3

Playbook.Dance

Make dance formations for your troupe with ease. Playbook is a useful app when blocking a piece. It lets you use dots to plan out dance formations for your sets without pen and paper.

4

SoundHound

What's that song? SoundHound is the free music discovery app that can listen and identify what's playing. The music player gives you full-length songs and videos with real-time LiveLyrics®. You can even take your searches handsfree by saying, "OK Hound... what's that song?".

BellydanceBoss

5

Coach's Eye

Video doesn't lie. This app allows you to slow down and analyze movement on a new level. You can watch dances in slow motion to find out exactly what's wrong or different among your group. This makes cleaning very precise for performance.

6

WhatsApp

A messaging app that lets you easily make free voice and video calls. One of the most interesting and most used tools on WhatsApp is the one that lets you easily create and manage groups. Great for reminders and last minute announcements.

7

Notetracks

This app provides an intuitive and interactive way to take notes for audio on your iPad, iPhone & iPod touch exclusively for iOS. Presenting lyrics, mix notes or general review comments in a way that is easily accessible.

Assign markers to your tracks to access certain parts of your audio quickly. Speed up or slow down audio to pay closer attention to certain segments. Filter frequencies to listen to certain parts more clearly. Record audio directly into Notetracks.

Store projects or share with collaborators, all in a mobile and easy to use format for users on the go.

I WOULD LOVE TO KNOW YOUR EXPERIENCE USING
THESE APPS.

CONNECT WITH ME ON SOCIAL MEDIA AND
LET ME KNOW WHICH IS YOUR FAVORITE.

To your success!
